KIANSAS CITY (Mo.,) May 7.—It seems that about all the hotel men in the United Staites are going to the Hotel Men's Natitional Convention in Denver. At 8 o'clock a special train passed through the city loaded with hotel men, and at 11:15 o'clock a special train, made up of the Wagner cars, Avon, Olympia, Orlando and Concord, and a dining and smokking car, with 500 hotel men from Boston, passed through. At 1 o'clock the third special train, made up of Pullman cars, an observation car and a dining car attached, arrived from New York. These trains will go through from Chicago to Denver on the Sarta Fe.

This morning the Missouri Pacific train from St. Louis brought the private Pullman cars, Maryland and Ravenna, with 100 hotel men from Cindinati and vicinity on board.

WASHINGTON, May 7.—The trial of the Commonweal leaders, which has dragged along in the Police Count for three days, will be concluded tomorrow. Coxey's explanation of his plans for redeeming the government was the principal feature of the day's proceedings, apart from the speeches by the lawwers. It is apparent the was the principal feature of the day's proceedings, apart from the speeches by the lawyers. It is apparent the case is being tested on the broad grounds of justification for the Coxey movement, for the Assistant District Attorney, in his opening address, called Browne a crank and did not hesitiate to insimuate that Coxey was a knave, while the opnosing lawyers endeavoned while the opposing lawyers endeavore to make the itrial appear a person by the plutocraits of the people.

COURT PROCEEDINGS.

The Defense Has an Inning—How the Judge Will Charge. WASHINGTON, May 7.—The defense had an inning today in the trial of Coxey, Browne and Jones for the May-day demonstration. Attorney Hyman made the opening statement for the

day demonstration. Attorney Hyman made the opening statement for the defense. There was no denial or defense for what the Commonwealers had done, he began. The defense would consist in the lawfulness of their action. He could remember but one similar occurrence in history, and thereupon he produced a Bible and began to read a scriptural passage.

"The gentleman should confine himself to a statement of facts," interposed the District Attorney.

"Does the attorney deny that this is a fact," demanded the young attorney, holding the Bible aloft, dramatically. He was permitted to read a passage from the Old Testament, rectuing that the Lord commanded Moses to take off his hat because he trod on hoty ground. From his discursive statement it was learned that the defense would be based largely on the brutality of the police in clubbing citizens. It would be shown that Coxey had not walked on the grass, and that Browne had been driven through the shrubbery by the police.

Frank Harper, a newspaper man from Alexandria, Va., test-fied that forder to clear a pathway. Coxey walked so quietly to the steps that he was not recognized until people pointed him out. Thirteen police surrounded

was not recognized until people pointed him out. Thirteen police surrounded the "general" when he arrived. The witness was certain Coxey had not walked on the grass. On cross-exam-ination he said there were five or six housand people waiting and cheering

or Coxey.
"Disorderly, were they not?" inquired

"Disorderly, were they not? inquired the District Attorney.

"Oh, no; they had a right to cheer. They were American citizens."

The witness said the police come near running down a little girl in front of him. He had been ordered off the asphalt streets three times, but re-turned every time.
"Then you disobeyed the police?"
asked the District Attorney.
"The police are not the law.

"Then you disobeyed the police?" asked the District Attorney.

"The police are not the law; they are the agents of the people to carry out the law," was the reply. One person in the crowd on the grass was Senator Allen.

Samuel L. Perrick, a colored witness, when asked his business explained: "I am one of the army of unemployed." Until the beginning of the Democratic administration he had been employed in the treasury. He swore that Coxey did not touch the grass.

Being called upon to give a ruling upon the question asked this witness Judge Miller said it might be a mittigating circumstance bearing upon the intent to violate the law that the defendant had been forced upon the intent to violate the law that the defendant had been forced upon the grass by circumstances. The Judge added that a hundred violations of the law did not excuse one violation.

This witness also saw the police drive people upon the grass.

Coxey took the stand and said he was a lobbyist on behalf of the unemployed men who came with him. They did so, Coxey said, upon the principle that they might as well be with him as anywhere. Coxey said he told Maj. Moore that the army might break up and enter the Capitol grounds as American citizens. The Chief said there was no objection.

"My object in going to the Capitol," said Coxey, "was to present to Congress my two bills—the Good-roads Bill and the Non-interest-bearing Bonds Bill, and to address the Congress of the United States and American, people on them. I demanded protection of the police, who seemed to be Col. Bright's right-hand bowers, to present Congress a petition from labor organizations in favor of the bills."

Judge Miller would not permit the introduction as evidence of the speech Coxey intended to make," or the protest he issued, saying that they had nothing to do with the trial. Coxey told his story of the march to Washington without embellishment.

Concerning the flags of peace carried by the army, "Gen." Coxey said they had been provided for the men in order to bring into publi

grounds.

Next came to the stand Representative Bland. After some wrangling over objections to questions, Judge Miller refused to permit the Congressmen to tell how the police had clubbed the

reitizens.

Representative Pence argued that the defense wanted to show that all the trouble was caused by the police and said that they had a dozen members of Congress to testify to that effect. Finally the members of Congress were allowed to tell that the police had

driven women and children and men over the grounds in their charge.

W. F. Longstreet of Worcester, Mass., and a Mr. Stettstust, a law student, testified that paths were made across the Capitol turf by people who took short cuts.

W. O. Shelby, a lawyer, described Browne's acrest, telling how the policemen placed their clubs on people, and that the officer who acrested Browne had shown him the stick taken from Browne. It had no flag on it. "The defense closed its case, and Lipscomb asked Judge Miller to charge the jury that the act of 1885 was not intended to restrict the right of citizens to peaceably assemble and petition Congress, and also that the banner carded was displayed and designed to bring the organization to notice. They must acquit Coxey, unless he advised or abetted the others to display a banner and to walk on the grass.

Judge Miller said he would charge that the jury must find that the defendants wifully and knowingly trod on the grass. The attorney for Christopher Columbus Jones asked the Judge to instruct that his cilent was to be acquitted on the second count; that there was no evidence that he had walked on the grass.

Assistant District Attorney Malom made the opening speech.

Representative Hudson of Kansas, who began for the defense, said it was plain the defendants were not tried on technical charges against them, but because they held political opinions contrary to the opinions of those in power. "These men are not being tried for stepping on the grass," he argued. "The District Attorney will argue to you against Mr. Coxey himself, and the Coxey movement."

Hudson was followed by Lipscomb, also for the defense, and then the court adjourned.

MASSILLON (O.,) May 7.—The prospect of arrest on the charge of abduction awaits Messrs. Coxey and Browne when Judge Miller of Washington is done with them. This trouble is in consequence of the appearance of the "Angel of Peace" in Coxey's May-day parade.

The "angel" was Miss Mamie Coxey, who is still in Washington, and who left without her mother's knowledge or consent. The mother, Mrs. Caroline Coxey, the divorced wife of the "general," secured her decree on the ground of excessive cruelty and was made legal custodian of the girl. Young Jesse Coxey was sent from Rockville, Md., and succeeded in getting his sister to run away with him. After their departure a letter was found in Mamie's room, written by Carl Browne, in which that gentleman says: "There can be no harm in your visiting Washington and being her brother."

Mrs. Coxey announces her intention of having Browne and Coxey arrested the moment they put foot in Ohlo, and she may carry the war into the District of Columbia.

A PERTINENT RESOLUTION.

WASHINGTON, May 7.-Mr. McGann WASHINGTON, May 7.—Mr. McGann of Illinois, chairman of the House Committee on Labor, has framed a terse joint resolution proposing the appointment of a committee of Senators and three members of the House to inquire into the cause of the present industrial depression and idleness, and report within thirty days. The resolution is to make inquiry on broad lines, so that the effect of the tariff uncertainty, silver legislation, etc., will all be considered without reference to the politics involved.

DES MOINES (Iowa,) May 7.—Kelly's army resumed work on the fleet today. It is said the army will move some time tomorrow. Prof. King, who has been giving exhibitions here, will lead the flotilla on an aquatic bicycle.

Up to this evening 118 of the 150 barges had been compelted. Kelly has been compelled to draw nearly \$500 from his army chest to help pay for lumber. The provisions have been falling low and today an appeal ror help was sent out signed by J. R. Sovereign, general master workman of the Knights of Labor and others.

The appeal is for organized labor alf over the country to help Kelly's army. It says: "Kelly's army is largely composed of members of organized labor. They are engaged in a crusade calculated to benefit labor in various ways and especially in an educational way. The army is sadly in need of material support. "Without committing itself to any particular theory or legislative policy, now is certainly one of the times when organized labor can further its causes, the interests of iabor, by doing a simple act of charity. We therefore appeal to you in this emergency to contribute something toward helping Kelly feed his men. United States marshals and locar officers.

This evening, however, a train of livestock east-bound, stopped at Harrison, ten miles west, and the officials of the railroad sent a crew and engine from here to take the train east through Sprague without stopping. The Coxeyites were alert and one of them, evidently a railroad man familiar with air brakes, rode the pilot of the engine back to Harrison, concealing himself on the trucks of the stock cars. This man put on the air-brakes as the train reached Sprague, neatly stopping it at the depot to the dismay of the railroad officials and to the applause of a large mob of Coxeyites and sympathizers. The Imprisoned Tourists at Gratz Not Dead

Issociated Press Leased-wire Service GRATZ. (Austria.) May 7-(By Atlantic Cable.) A diver today reached the seven tourists imprisoned in the stalactite cavern since Saturday, April 29, by the sudden rise of water April 29, by the sudden rise of water and the passage becoming blocked with timber and boulders. They were alive. The news that the tourists were still alive caused the utmost satisfaction among the crowds of people who gathered about the cavern, in order to watch the work of the engineers, who have been tolling night and day ever since they were ordered to the spot, when the local authorities announced their inability to force an entrance into the cavern. The engineers had a very difficult task to making an opening into the cavern. The Intrance was blocked by timber, boulders and floodbars. It was absolutely necessary to bars. It was absolutely necessary to use dynamite in order to clear away use dynamite in order to clear away the obstructions, which prevented the entrance of a diver into the cave. The engineers were compelled to work slowly and with the utmost caution,

slowly and with the utmost caution, as it was feared that a too severe explosion might bury the imprisoned people beneath tons of rock.

When the debris had been cleared away and all was ready for another attempt, Diver Fischer made another attempt, and this time succeeded in descending into the mouth of the cave. He notified the engineers that although the tourists were alive they appeared the tourists were alive they appeared like people half bereft of reason, the terrible nervous strain to which they had been subjected having almost driven them mad. The tourists must have taken a considerable supply of provisions when they went into the cav-ern, over a week ago, as they still had, according to the diver, a little bread and obeese left, and they had

some candles burning.

There have been some references to Buckley in the papers recently, but none in the Chronicle, as far as is known, that would give rise to an attempt of this kind.

er.-The cause of the shooting Later.—The cause of the shooting seems to be nothing more sensational than that of a protracted spree. Jake Rudolph is one of the so-called bad men of the town. He is ugly in appearance and ugly in temper. As he sat in the prison at the new City Hall, with a black scowl around his unintellectual face, he looked what he is—the ex-convict. Whenever Rudolph gets drunk he wants to shoot some-body. gets drunk he wants to shoot some-body.

The time was when Rudolph used to

The time was when Rudolph used to cattry a gun that was a ways clean and polished, and it was a frequent fancy of his to pull it out and make the magazine revolve many times with a bittle shove of his finger. The gun he used today, however, shows neglect. It is a little rusty, but in good enough condition to kill. It is a 44-caliber navy Coxt.

Rudolph's record is a bad one. On August 5, 1873, when only about 15 years of age, he was charged with robbery in connection with Robert Samson. The case was sent to the County Court, and on October 19 Rudolph was shipped in the United States Navy. He bobbed up again on the prison register on August 6, 1876, when he was arrested for shooting at Police Officers Avan, Eaton and Harry Fassett, on Green and Stockton streets. On September 11, following he was sentenced to four years in San Quentin, having been convicted on a charge of assault to murder.

Since he served his time Rudolph has come under public notice in various ways. Chief of these was as the body-guard of Chris Buckley. When Buckley was to Charle Buckley. When Buckley was to Charle Buckley. When Buckley absence in Europe and the East Radolph has been very often in the company of his distinguished chief. Hay and Grain Improving in Coast Counties Associated Press Leased-wire Service.

SACRAMENTO, May 7.—Director Barwick of the State Weather Service, in his weekly crop bulletin of this date, says the deficiency of heat in the coast counties, along with the nightly fogs, have greatly helped hay and other vegetable growth, and is, therefore, more of a benefit than a detriment. On the other hand, the great excess of heat over the normal great excess of heat over the normal in the two great valleys of the State, along with the continuous drying winds, have had a bad effect on grain winds, have had a bad effect on grain and hay. The excess of heat has drawn the moisture so rapidly and theroughly from the ground that it more than overbalances the good effect of the rains of the previous week; therefore the grain and hay crops are in a precarious condition, in fact, almost a total failure on the San Joaquin Valley and far below the average of an ordinary crop in the Sacramento Valley.

The fruit and berries and hop crops The fruit and bernies and hop crops bid fair to be above the average of a good-year crop. A telegram dated May 7, from Santa Marta, Santa Barbara county, says the grain crop promises only hay and seed. Summer crops are better, and apriocts were touched by free.

R. W. Wilcox New "Rooting" for the Queen He Intimates That He Will Don His Warpaint if Congress Does Not Restore.

WASHINGTON, May 7.—Probably few members of Congress realize just how strained the situation in Hawaii is today. A letter dated April 5 has been received by C. C. Moreno from R. W. Wilcox of Honolulu, who puts

the case in this way:
"Every Hawaiian expects to learn of
the final decision of the Hawaiian question on the arrival of the steamer Mariposa, which is expected May 12. They look only for fair play on the part of the Senate. They ask simply that the Senate will support Cleveland's policy for the restoration of the statu quo of January 16, 1893, when Stevens, the January 16, 1893, when Stevens, the "jingo" representative of the United

States, overthrew the legitimate government and established a missionary oilgarchy, which is a curse to us and a disgrace to modern civilization. "The Hawaiians are keeping the peace, notwithstanding the insults they have received from the provisional government, for they wish to show every regard and courtesy to President Cleveland and his policy. A bloody revolution will follow, however, if the Senate falls in its duty and throws contempt upon the honor, integrity and Senate fails in its duty and throws contempt upon the honor, integrity and justice of the policy of the chief magistrate of the United States toward Hawaii. Whatever the Senate may do, you may be assured that I-will do my duty to my country, and that very soon. S. M. Damon, Minister of Finance of the provisional government, has given his assurance to Samuel Parker that the provisional government would retire in a body and surrender control of the kingdom to the Queen as soon as it is learned that the Senate approves of President Cleveland's policy.

approves of President Cleveland's policy.

"The scheme of the provisional government for inducing the Hawaiians to forswar their independence and forsake their Queen turns out a complete failure. The Chinese have organized as a body to secure the restoration of the Queen in case the United States Senate fails to do justice. The Japanese have taken the same course. These, bear in mind, are all apart from the Hawaiians themselves and from the white foreigners. The Hawaiians are going to hold a mass-meeting next Monday to denounce the fraudulent constitutional convention' and be-mock the republic set up by the missionaries."

The Chinese treaty was under discus-sion for six hours by the Senate in exsion for six hours by the Senate in ex-ecutive session today, but, that time proving insufficient for its disposal, it went over until tomorrow, when Sen-ator Morgan gave notice that he would again call it up. mittee on Foreign Relations, and by Senator White of California, while Senator Perkins of California spoke in opposition.

Senator White offered some amendments to the treaty providing for closer restrictions upon registration of returning Chinese, and sakd that, with this safeguard added, he thought the treaty would be acceptable. Indeed, without the amendments he would probably vote for the treaty, as, in his opinion, it was an international confirmation of the present laws of this country against Chinese immigration.

Senator Perkins took the opposite view, and contended that the ratification of the treaty would mean the throwing down of the bars to the Chinese, and that it would undo all that had been done in the past two years to restrict or control immigration. He objected to much of the phraseology of the treaty, and contended that, if it was to be ratified at all, as he did not think at should be, it should be very carefully amended in many particulars.

Senators Morgan and Sherman urged that the treaty was a favorable one to the United States, declared that it accepted and confirmed all our anti-Chinese legislation, and said it opened the way for the amicable extension of our trade with China, and the improvement of our relations with that country. The only vote taken during the executive session was on Senator Mitchell's, motion to consider it in open session, and it was lost—18 to 35.

An Interesting Report by the Senate Committee on Civilized Tribes.

WASHINGTON, May 7 — Senator Teller today presented a report of the Committee on Civilized Tribes of Indians on the affairs of Indian Territory. The report shows an anomalous condition of society and indicates report whose that have grown up. The nitory. The report shows an anomalous condition of society and indicates many abuses that have grown up. The report gives the Indian population of the Territory as 50,055 and the white population at between 250,000 and 300-000, many of whom have no right of citizenship. The Indians themselves are held responsible for the intrusion of whites.

The expense of maintaining the Federal court and prosecuting crime in the Territory is about one-seventh of the judicial expenditure of the United States. This cannot be fully remedied until a Territorial or State government is established. The committee thinks, however, that a partial remedy may be found in the appointment of two additional justices and the appointment by the court of commissioners at different localities.

The report also refers to the fact that the children of the white and black population are deprived of the advantages of the common schools, and say that, while the parents of the children may have gone to the Territory with a knowledge of this condition, the people of the United States cannot afford to close their eyes to the wrong to the children, and declares that the matter of allowing children of so large a population to grow up in ignorance is one of national concern.

Senator, Lodge introduced an amendment to the tariff bill in the Senate today, of which he gaves notice some times ago, providing that as against Great Britain or any of her colonies a duty double the amount imposed in the proposed tariff bill shall be levied, and a duty of 35 per cent. be imposed on all articles on the free list, such duties to continue until Great Britain shall assent to take part in an international agreement with the United States for the coinage and use of silver.

The Senate spent six hours behind closed doors, and then opened in order to agree to a conference on a bill regulating liquor licenses in the District, HOUSE.—The House began its business today by making some committee provision for the newly-elected members of the House. The Frinting Office Bill was discussed until 5:07 o'clock, but long before that hour the debate fell into a tariff discussion, and Mr. Milliken of Maine delivered an amusing speech, arraigning the Democratic party for bringing on the financial depression which the country has been suffering from. At 5:12 o'clock the House adjourned.

The New York and New Jersey Bridge Bill passed, under suspension of the rules.

Woolen Manufacturers Consent to a Gradual

Woolen Manufacturers Consent to a Gradual Tariff Reduction.

PROVIDENCE (R. I.) May 7.—A Washington special to the News says that the proposition of the woolen manufacturers to the Senate committee on the wool tariff is that the McKinley tariff is to remain untouched until January 1, 1895, then a reduction of 10 per cent. to be made, followed anually by a similar reduction until absolute free trade conditions are reached.

This schedule has, it is understood, been submitted to New England manufacturers by the Democratic woolen manufacturers, and they have agreed to it, and it is claimed that virtually all the woolen manufacturers of the United States have signed the petition.

The publication of the occupancy of the land is treated at length. The committee finds that the original theory of the government that the Indians were to own the land in common, all having equal interest in it, has been violated, and that a few enterprising citizens of the tribe, frequently not Indians, but citizens by intermarriage, have become the practical owners of the best and greatest part of the lands. Instances, they say, come to their notice of men having as high as one hundred white

the practical owners of the best and greatest part of the lands. Instances, they say, come to their notice of men having as high as one hundred white tenants, and in one case report a white man, though an Indian citizen by marriage, who had 400 holdings, amounting to about twenty thousand acres. In the most progressive of the tribes the committee found that about one hundred persons had appropriated half of the best land. The report shows that this condition of affairs was never contemplated, and suggests that Congress shall take the matter in hand and provide a remedy in the interests of both white and black. No remedy is suggested at this time, however, because the Dawes committee is now in Indian Territory with the purpose of submitting to the several tribes a proposition for a change of the present condition.

"We prefer," the committee says, "to await until it shall be seen whether this difficult and delicate subject may not be disposed of by an agreement with the several tribes of the Territory, but if the Indians decline to consider any change in the present considerations of their titles and government, the United States must, without their aid and without awaiting their approval, settle this question of their land tenure and establish a government over the whites and Indians of that Territory in accordance with the principles of our Constitution and laws.

Nothing, the committee says, will do but the abandonment of the present system. It cannot be modified or reformed, but a better system must be substituted. That this will be difficult to do, the committee freely admits, but because it is a difficult task is no reason why Congress should not at the earliest possible moment address itself to the question.

in getting together after the call. Murphy was the first to lead, landing a light one on Griffo's nose. They came together at-once in a rapid exchange Griffo landing his right twice lightly on Murphy's eye. It was an even thing to the finish. Second round: This was a warm

on Murphy's eye. It was an even thing to the finish.

Second round: This was a warm round. Murphy let go his right again, but this time the black-haired boy was too quick for him and had put in his right on Billy's stomach. It was give and take for the next few seconds, with the odds in favor of Murphy. Griffo secured first blood, landing his left on Murphy's nose with good effect.

Griffo secured first blood, landing his left on Murphy's nose with good effect.

Third round: Murphy seemed tired when the men responded for the third round, and Griffo went at him with a view to finishing him. Murphy went to his knees from a right-hander on the law, but was up at once and hot at it. Murphy managed to get in a few good ones on Griffo's stomach.

Founth round: Griffo got in his left twice in rapid succession, and the blood began to flow down Murphy's cheek. Griffo was doing all the leading, while Murphy seemed content to wait.

Fifth and sixth rounds: These were warm ones, but although both men landed many blows, neither of them had the strength to floor his opponent. Seventh round: Murphy got his right in on Griffo's neck, but the blow glanced off.

Eighth round: The last round was a trying one for Griffo, but he kept hished well and let Murphy tire himself off. Murphy had a "do or die" expression on his face when the men were alled to the center. He made straight or Griffo's body and succeeded in getting in a few hot ones, while the latter was thinking about it. He next landed his left on Griffo's face; and to many it seemed as if the little fellow was getting careless. He recovered himself, however, and in the last few minutes got in a few good ones on Murphy's body and one on the face. The men shook hands, and the referee, Mr. Daly, gave the bout to Griffo, amid hisses and cheers. The pair met in the Casino before twenty-five hundred spectators.

THE MEYER CASE.

A Missing Witness Heard from-The Accused Man's Wife.

NEW YORK, May 7 .- Frank Burk of Chicago, the witness for the State in the Meyer poisoning case, and who disappeared last Wednesday, has written to Assistant State's Attorney Intyre, saying he was sorry after put-ting the State to the expense of bring-ing him here that he had not the heart to go on the stand and give evi-dence against the man who had be-

heart to,go on the stand and give evidence against the man who had befriended him at one time, and later
was his partner in wrong-doing, so he
went away and hoped the District Attorney would not attempt to hunt him,
as it would be useless.

Mary Mueller, wife of Carl Mueller,
testified that Dr. Meyer told her he had
Brandt's life insured.

Simon B. Minden, who was called
in during Brandt's last hours, and who
visited him twenty-one times, testified
that on his visits Mrs. Meyers was introduced to him as Baum's wife. Baum
did not exhibit symptoms of arsenic
poisoning.

It leaked out this evening that Mrs.
Meyer recently wrote to Daniel G. Glilette, steating she was innocent and
asking him to use his influence to have
her set at liberty. The Coroner's physician, O'Hare, who was present at the
autopsy on Brandt's body, was questioned, when court adjourned until tomorrow.

down in the dockyards—two at Portsmouth, two at Chatham and one at Pembroke. With three of these fairly satisfactory progress during the year is anticipated.

These battleships are of the Majestic type, and are ten feet longer and of correspondingly greater displacement than the Royal Sovereign class. They are 330 feet long, 75 feet beam, and have a load draft of 27 feet 6 inches with 900 tons of coal in the burkers, when the displacement is 14,900 tons. The weight of hull is 10,180 tons, and the broadside will be covared from under the water line to the top deck with Harvetzed plates 9 inches thick, the depth extending to about 15 feet. The armament consists of four 12-inch breechloading guns, mounted in pairs en barbette and armored with 14-inch Harvey-ized plates, and in addition there will be twelve 6-inch and twenty-four smaller quick-firing guns. The machinery is designed to develop, under natural draught, 19,000 indicated horse-power, giving a speed of 16.5 knots, and under forced draught 12,000 indicated horse-power, giving a speed of 16.5 knots, and under forced draught 12,000 indicated horse-power, giving a speed of 16.5 knots, and under forced draught 12,000 indicated horse-power, giving a speed of 18.5 knots, and under forced draught, are yet to be given out to contract six second-class cruisers of the Taibot class. They are 350 feet long, 53 feet 6 inches beam, and with 550 tons of coal in the bunkers have a load draught of 20 feet 6 inches, when the displacement is 5000 tons. The engines, under forced draught, are to develop 9600 horse-power, and give the vessel a speed of 19.5 knots.

Mixed Up the Two Websters

Mixed Up the Two Websters.

(Boston Post:) During Daniel Webster's visit to England he was taken one day to see Lord Brougham. That eminent jurist, however, received him with such coolness that Mr. Webster was glad to get away, and took his leave at the first opportunity. The friend saw him to his rooms and then returned to Lord Brougham, and in some anger said:

"My Lord, how could you behave with such unseemly rudeness and discourtesy to so great a lawyer and statesman? It was insulting to him, and has filled me with mortification."

"Why, what on earth have I done, and whom have I been rude to?" asked His Lordship.

"To Daniel Webster of the Senate of the United States."

"Great Jupiter, what a blunder!" exclaimed Lord Brougham, realizing the mistake he had made. "I thought it was that fellow Webster who made a dictionary and nearly ruined the English language!"

Then, it is said the great chancellor sought Mr. Webster, explained and excused his conduct, which the latter generously accepted, and, it is added, having other tastes in common besides law and politics, they made a royal night of it. All of which is probably true enough to found a story on.

"Most Musical, Most Melancholy." "Most Musical, Most Melancholy."
(Ruskin's "Modern Painters:") We have prefaced the hackneyed line of "II Penseroso," because it is a definition of the essence of the beautiful. What is most musical will always be found most melancholy; and no real beauty can be obtained without a touch of sadness. Whenever the beautiful loses its melancholy, it degenerates into prettiness. We appeal to'the memories of all our observing readers, whether they have treasured up any scene, pretending to be more than pretty, which has not about it either a tinge of melancholy or a sense of danger, the one constitutes the beautiful, the other the sublime.

MILLIONS IN SUGAR BEETS.

While the hay and grain crop in this

section will be a comparative failure, it

is pleasing to learn that there is one

crop which promises to do as well as in any previous year. This is the sugar-

beet crop, of which, at Chino, over five

thousand acres are reported to be in ex

cellent condition, the only exception be

planted on the more elevated land. It

will be from 25 to 30 per cent. greate

than has ever been harvested before, and it is expected that, from the expe-

rience which the growers have acquired since they first began to grow beets, the

orop will average higher in sugar this

year than it ever has done.

Only those who have fully investigated the subject can begin to appreci-

ate the vast importance of this industry

to Southern California. The single fac

tory at Chino has already built up a

large and thriving community upon

what was, until a few years ago, an al

most uninhabited expanse of pasture

and grain land. The only thing that is

needed to give us twenty such factories

in Southern California, instead of one

is the consent of Congress. If Congress

can sugar a chance, there is no reason

able doubt that within four or five

years we shall see from a dozen to

twenty beet-sugar factories in opera-tion between the Tehachepi and the

Mexican line. Already there are capi-

talists ready to establish three or four

more factories in Grange county just as

oon as the question of duty or bounty

The beet-sugar industry is just what

Southern California with a worth

we need to insure the rapid settlement

and industrious class of people. It is

often urged against our leading indus-

try-fruit-growing-that it needs con-

siderable capital for people to go into

it, because the horticulturist has to

wait several years before he can expect

any return from his orchard. At the

same time, the cost of orchard land and of trees is quite considerable. Hence,

the man who comes from the East with

moderate means—with just sufficient to

transport his family and household be-

longings, and leave a little over for the

purchase of a small tract of land, stock and implements, is forced to look

ing a living from the soil. Here is

of particular value. If a man purchases

land in the neighborhood of a sugar

factory, he needs but a very few dollars to begin with. If he does not care, or is unable to buy land at the start, he

can lease it from the factory, which will also supply him with the necessary

seed. A further advantage is that, in

crop, he can utilize all the members of

ordinary success he should, after the first season, be able to make a payment

on the tract of land, and within a fer

industries which grow up around beet

sugar factories, employing a large num-

ber of men. For instance, there is the feeding of cattle on beet refuse. Dai-

ries can also be established in the same

manner. Fruit canneries and crystalliz

ing works find a convenient and natural

location in the neighborhood of a beet

sugar factory. The same is true of pork-packing establishments. In fact,

very such factory will become in time

the center of a busy and prosperous

community, drawing their income from

the soil through an industry which has

never yet been known to fail in this

The Democrats in Congress have been

hesitating a little about removing the

sugar bounty, but it is now reported

that the bounty will certainly have to

go. The removal of this bounty, with its consequent encouragement to a grea and growing industry, will be remem

bered in after years as one of the wors

of the many bad things which the Dem-

ocratic party has been guilty of. It remains to be seen whether such a change could legally go into effect at once, as is

proposed. The bounty was granted for a fixed period, and it is held by some

that this makes it in the nature of an agreement between Congress and the

people, which agreement cannot be ab-rogated at will by one party of the con-

tract. In any case it is difficult to see how these factories, which have been established under the promise of the

bounty, can be deprived of that sub-sidy until the term of the bounty shall

have expired. This would certainly be a direct injury to those who have in-

vested their money in such an enter-prise, and would be a breach of faith

It is announced that the Committee

of Five, appointed to examine the accounts of the Midwinter Fair manage

ment, reports the finances of the fair to be in excellent condition. It is esti-

mated that at the close of the exhibi-

tion, after all expenses are paid, there

will be a net balance of \$135,747. It is

pleasing to learn that the affair is likely to be a success financially as well as otherwise. Even if the show had lost money it would have been a

profitable thing to the State, on ac-

THE VOTERS AND THE PRIMARIES.

One of the most encouraging signs One of the most encouraging again of the times is the interest which is displayed by the mass of citizens in the discussion of means for the puri-fication of local politics that is now going forward. This is more or less true in regard to the whole country at presis centainly and emphatically thrue of this section. been published from time to time by us on the subject have been closely followed by our readers and strongly commended. The absolute necessity for

radical change in the present metho choosing our public officials seems to be admitted by all except those few persons who are interested in hood-winking the voters and fixing up things

when the existence of an evil is gen nally admitted, half the battle is won. Not only is that evil generally admitted, but an overwhelming majority the voters agree as to the caus of the evil, although most of them do not see quite clearly how that cause is to be removed. It is agreed on all hands that if we could get the great body of citizens to attend the primaries and control them, as they have a right to do, it would entirely change the plexion of affairs. That the respectable voters, as a rule, do not ttend the primaries is a fact that is thioning. And yet it is at the primaries that the work is done which practically decides the character of the officials who are to hold office during the next

two years. It is like opening the gate ditch. Lower down that ditch men with shovels may change its course, but they cannot change its character has once been opened. Certainly, then, it is a duty which every patriotic cit-izen owes to the community to attend primaries and use his influence to cause of good government. we all know. The doctrine has been many years, by reformers and by the tend the primaries in anything like to-rather less so than formerly. And why is this the case? Here we come to another fact about which there are no two opinions in the minds of right inking people. The great majority of respectable citizens do not attend the primaries because they do not wish to run the risk of being insulted and buildozed by the class of people who, in nine cases out of ten, run those gatherings. It is very well to say that the patriotic citizen ought, notwith-standing this, to be present and to hold the disreputable element in check. Theoretically, of course, this is al very men who preach the

necessity of going to primaries are

frequently those who are never seen there. Politics is not a theory, but a condition, and in dealing with it—

ry and adopt practical measures

It is of no use to preach to people about what they ought to do; that has been tried for many years, without any appreciable effe If, as we have shown, the respectable voters will not attend the primaries as they are at present conducted, the next thing to consider is how we may arrange things so that the vote of these people may be brought out. A plan which is designed to accomplish this has been suggested by a number citizens who have given the matter much thought, and a description of that plan was recently published in The Times. It may not be altogether per fect-it is perhaps susceptible of some improvements-but the general idea or the plan is undoubtedly an excellent and is admitted to be so by a great majority of those who have ex-amined it. Under this plan the voter would not be compelled to attend a gathering composed mainly of ward strikers, political wire-pullers and cor ruptionists, who have nothing else to do than to devise schemes for obtain ing control of the political machine and who, having nothing else to do, are

able to so fix things that it is almost impossible for the respectable class of voters, whose private business takes up all their time, to get a fair show. Un der this plan the voter would indicate choice in the privacy of his home whole transaction, would not take more than a few minutes. There is no doubt that nine-tenths of a ble vote could be brought out in this manner, for the small attendance which it at present noticeable at primary elections is not, as some people suppose, the to the indifference of decent Amer-tean citizens on the subject of politics but to the insuperable objection which they entertain to mixing in the pri-

es, as those meetings are now con-There is now strong hope that this plan with, perhaps, some slight modi-fications, will be tried at the coming election. The result of its operation will be watched with great attention by all who are interested in the cause of good government, not only in this section but throughout the country.

"Col." Vinette and his seven associates are due to appear before the Superior Court in this city today, writs of habeas corpus having been granted them by the Supreme Court.

SANTA MONICA'S POSTOFFICE

Statesmanship, politics and post-offices are associated with a Siamesetwin-like closeness that makes them fit subjects for popular discussion wherever found. Santa Monica has had all three, and there is talk accordin. The inwardness of the outcome of the

postoffice fight is about so:

John C. Morgan is an old wheelhorse of the Democracy, and was backed by "Our Steve." H. C. Beville is a wellknown business men and had the ear-nest support of the committee and Congressman Cannon. The general public has been looking for the appointment of one or the other of them for a long augurated, which has just fruited. From the inside it is more than hinted that neither the representative from district nor Senator White was consulted in the decision of the Presi dent, but that the silver-slinging Sena-tor from Nevada, John P. Jones, who lives in Santa Monica and represents her, more or less, "played it fine" upon his unsuspecting colleagues, and that, in the parlance of the street, neither the misfit Congressman nor "Our Steve" were in any sense "in it."

John C. Steele, the new appointed nas the name of being a clever sort of young man, who sucked Democracy maternal font, and wears his spurs almost entirely upon the propo sition of the New York upland sting aree, "I am a Democrat." of campaign gush could make Steele in any sense a prominent man in the councils of his party. He and a brother at the seaside, but he has been out of months, except as janitor of the schoo building. He is considered competent for the duties of the office, and wil undoubtedly do what neither of the others would have been likely to do, namely, give his entire personal attention to the office. "Let us have peace."

Robert W. Wilcox, popularly known at Honolulu as the "leader of Young Hawaii," has written a letter to Caesar Celso Moreno, a former minister of the kingdom, intimating plainly that i Congress does not act on the first sug gestion of President Cleveland and restore the Queen, a bloody revolution will ensue. Wilcox is one of the fev native Hawaiians possessed of sufficient military ability to lead a move-ment of the kind, having been eduby Kalakaua in the schools of Italy. In 1887 he attempted the over of Kalakaua at the secret instiga tion of Liliuokalani, who even the was ambitious of royal power, but was overcome by the whites. While a repesentative of the Liberal party in the Hawaiian Legislature he became disaffected and on the overthrow of the Queen, espoused the provisional cause and was made one of the first vice-presidents of the Annexation Club. He was in frequent communication with Minister Stevens, whom he now terms a "jingo," and was favorably noticed by the Minister in a report to Presi-Minister in a report to President Harrison. The provisional government, however, though informally recognizing Wilcox's ability and services, failed to appoint him to office and this is the sole secret of his new change of front. It is not likely that the United States Senate will stand in any awe of his threats.

A French steamship has now broke the record for short time across the Atlantic, La Touraine having made the trip from New York to Queenstown in five days and sixteen hours. It looks as if we might see the time reduced to five days within a couple of years Then, if the railroad companies do as well, it will be a small matter for citizens of Los Angeles to run over to Europe for a month, spending ten days on the journey each way and ten days in Europe.

The Vidette of San Diego is another paper which comes out in advocacy of violence, publishing a virulent article in which it urges people to join the army of Coxey and overturn the government by force. Such a result might be an aid to smuggling and the like on the border, but, fortunately, the papers these are as little influential as they are few in number.

The Senate Finance Committee's Senato measure deserves the title of romise" which has been applie to it. According to the changes in the schedules, as telegraphed, it is a heterogeneous measure that would compromise any legislator found voting for

THE SINGLE TAX.

Mr. Post on "Progress and Poverty."

The Georgian Apostle Explains . His Doctrine.

His Arguments Illustrated by Some Elaborate Charts.

A Correspondent Shows That the System Plainly Stated, Means Confiscation and Robbery-Two Sides of the Question.

A fairly large audience was in at-tendance at the lecture on "Progress and Poverty," given by Louis F. Post, lecturer, at Unity

Church last evening.

There was a song by James G. Clark after which Ralph E. Hoyt, the president of the local organization of single-taxers, made some brief introductory remarks, and introduced Mr. Post.

In beginning, the speaker cited a case where he not long visited a paper-mill in the State of New York. He saw only four or five men about the large ma-chine turning out the big rolls of pa-per. He found that within a period of seven years by means of labor-saving machinery the amount of paper which the same number of men could produce had multiplied five times. Notwith-standing the great increase in the nad multiplied five times. Notwith standing the great increase in the standing the great increase in the amount those men could produce their wages had remained the same, and their chances of continued employment had become more precarious.

The introduction of machinery which has so greatly increased production, he said, has had the effect of rendering the chances for employment more uncertain.

ing the chances for employment more uncertain.

Going on to define poverty Mr. Post described it as that condition of things whereby a man cannot procure sufficient to eat, to drink, to wear, or to enjoy the comforts of life.

The speaker proceeded to illustrate his remarks by means of charts. Citing a loaf of bread as an instance, he pointed out that it is composed virtually of flour, yeast, salt, water, fire, an oven, lot of land and a baker. All these are requisite for the finished loaf of bread.

built he would regard with hostility all improvements in his vicinity that would tend to increase his single tax. The erection of an hotel or postoffice near him might double and quadruple the rental value of his lot and force him to move or abandon it, through inability to pay the increased tax, in which case we may suppose that in choosing his next location it would be in a part of the city so undesirable as to be outside the range of improvements for years to come. I think along the railroad track would be the place for a poor man under a single-tax regime.

(3) The single tax is advocated on the ground that it would throw open of bread.

Using symbols to represent the items the making of the bread becomes equivalent to a combination of wealth, labor and land. Going still further, it is shown that labor applied to the land produces all the various articles required for food, clothes, shelter or luxuries.

uries.
Capital, the speaker said, is what may always be called unfinished. It is a combination of natural material and human art. He argued in favor of absolute free trade, stating that the less barriers there are between exchange the more a man may secure by means of exchange of those things which he desires from all parts of the world. It is not nations that trade world. It is not nations that trade between one another, but individuals. Using a chart, the speaker illustrated that, theoretically, the food-maker receives clothing from the clothing-maker, who in turn receives shelter from the shelter-maker, and so on around back to the food-maker. Each one in this circle, as it were, gives his labor, or the results of it, to a community and receives from the community the labor or results of the labor of others.

munity and receives from the community the labor or results of the labor of others.

Those in each vocation may be said to be revolving in circles, and as long as there is no obstacle there is no trouble. When, however, some obstacle gets in the way and diverts a part of the flow around each circle, then what the parts of the various streams are diverted to may be called monopoly. Under such a condition the individual does not receive from his fellows a total of the results of labor equivalent to the labor which he puts forth.

There are various kinds of monopoly but, should all others be done away with, there would still be the monopoly of land. There is the railroad monopoly, but if the railroad should be made to give free transportation then the owner of the land, the product of which the railroad transports to market, will charge as much more for rent as the railroad has been charging for transportation.

Summing up, the speaker touched

rent as the railroad has been charging for transportation.

Summing up, the speaker touched upon the advantage of having possession, but not ownership of land allowed and of having a condition of things whereby it is unprofitable for a man to possess land which he does not use or have used for some good purpose. The system should be such that the man may have from the land he possesses system should be such that the man may have from the land he possesses all that he can develop by his own labor, but that the community shall receive from that land all the value which the community has given to it.

Mr. Post will deliver his second and concluding lecture this evening, when he will discuss "The Single Tax."

THE SINGLE TAX SYSTEM.

roncucing lecture this evening, when he will discuss "The Single Tax."

THE SINGLE TAX SYSTEM.

Plainly Stated, it is Practically Confiscation and Robbery.

LOS ANGELES, May 7.—(To the Editor of The Times.) The object of the single tax, as stated by Henry George, is "to make land common property." To effect this purpose he very correctly states that "it is not necessary to confiscate the land, we can confiscate resingle tax would be in effect the confiscation of land from the present owners without compensation. Single-taxers justify this scheme of confiscation and robbery on the ground that the land-owners did not create the land, can show no just title to it, and have no authority, morally, to rob labor by exacting rent for its use. Let us admit all their contention in the premises. It yet remains to be shown why present owners should be robbed of that property they acquired legally. Let us admit the dictum of Herbert Spencer that "Equity does not permit private property in land." Yet it must be remembered that present owners are not the only beneficiaries of that "unearned increment," which it is the object of the single tax to confiscate: Millions of former owners now dead have shared in this increment. Millions of others have made fortunes out of increase in land values, and have invested their profits in other ways of acquiring wealth, such as loaning money at interest, investing in United States bonds, manufacturing industries, etc., all of which would go untaxed under a single-tax regime.

Take a concrete illustration: The land ocupied by the Bryson-Bonebrake building, corner of Spring and Second streets, was purchased by the owners from the municipality for \$120,000. Let us assume the building thereon cost a like sum—total \$240,000. Say the investment pays net. 8 per cent., or \$19,000 annually. According to, the single-tax plan half of this amount, \$9500, would be confiscated annually by the government in the shape of single tax, the buildings being free of taxation. This is what single-taxers mean by On the lawn a kinder stewin' like I don't lenow what ter do; lenow what ter do; Jest a pullin' grass an' chewin', then achangin' uv the chew; changin' uv the chew; kinder feelin' like an' wishin' I wuz settin by a hole; Makin' out the I wuz fishin', 'ith a siender willer pole; der willer pow.

regime.

(3) The single tax is advocated on the ground that it would throw open land and natural opportunities on equal terms to all upon payment, of economic rent; that employment would, therefore be quite independent of the capital state.

terms to all upon payment of economic rent; that employment would, therefore, be quite independent of the capitalists; that when not satisfied with "wages" they could apply their labor direct to land at the "margin of cultivation," i.e., land of no rental value, and bid defiance to the capitalists. Well hardly! We have got past the time when the man without capital can make a living, either by manufacture or agriculture. The "bonanza" farm raises wheat for 331-3 cents per bushel; the small farmer, even with capital

and experience, cannot raise it for less than \$1. The days of small production

than \$1. The days of small production are gone. Land and natural resources to be profitably utilized require the employment of expensive machinery and great capital. The small producer is "not in it" with the capitalistic mode of production. In conclusion, the single tax offers to the man without capital (97 per cent. of the population) all he can make on land at the "margin of cultivation," i.e., land of no rental value, with the present tools in use. All the excess produced on land above the "margin" would be confiscated by the single tax, and all the advantages

the "margin" would be confiscated by the single tax, and all the advantages of the use of the best tools in use would be absorbed by the capitalists as interest, the "just return" as George puts it, for "aiding production." The "iron law" of wages would still be in full force and effect. Wages under competitive conditions would still continually tend to the minimum upon which the laborer would consent to reproduce.

The majority report, signed by Councilmen Rhodes and Innes, recommending the City Attorney be instructed to present an ordinance for advertising for bids for a franchise for a street railway as petitioned for by the Mainstreet Railway Company, and the minority report, signed by Councilman Strohm, recommending the denial of the Main-street company's petition were then read.

Councilman Campbell moved to substitute the minority report for the majority report. Lost.

Councilman Campbell moved to substitute the minority report for the majority report. Lost.
Councilman Rhodes moved to adopt the majority report and Councilman Munson seconded the motion.
Councilman Strohm said with considerable earnestness that he believed the Seventh Ward deserved some consideration at the hands of the members of the Council. The people of that ward do not want the railroad to be allowed to run through their ward and especially on Third street, which has just been graded and improved at the expense of property-owners, The Mainstreet Railway Company, he said, is more or less interested in the City Water Company and has been disposed to take every cent it could get, leaving it to outside capital to come in and make improvements.

Ex-Mayor Hazard was heard in behalf of the petition of H. F. Storrs for a franchise over a route running in a general southwestern part of the city. He argued this franchise should not be kept back for it involves nearly twice as much railway as the other. He thought it strange the petition of the Main-street Company should have been allowed to be dormant for several months and then resurrected just as soon as other capital is ready to come in and improve. Mr. Hazard presented petitions signed by a number of property-owners asking that the Storrs franchise be granted.

Councilman Munson moved to postpone action for one week.

me Side Remarks on How the Calendar Was Formed and by Whom-The Hand That Julius Caesar and Pope Gregory Took in It-How Time is Computed,

The calendar is a product of the last housand years. Prior to that time men had very vague and foolis had very vague and foolish notions con-cerning the measurement of time. More-important than all his campaigns, all his contributions to Roman development, was the correction by Julius Caesar of the calendar, conforming it as 'closely as possible to the most advanced astronomy of his day. The discoveries of Galileo shed a flood of light upon vexed questions recarding computations and divisions of of his day. The discoveries of Gallileo shed a flood of light upon vexed questions regarding computations and divisions of time. Pope Gregory during his reign made other and valuable additions to the science of the calendar, so that the calendar we use today is largely the one given to the world by Gregory. After the fact was perfectly attained that the earth revolved on its axis, and thus spinning traveled along the line of an elliptical orbit and around the sun, there was an unswerving basis upon which to form all calculations. The period required by the earth to revolve on its axis was accounted a day; that period consumed in making a complete circuit of the sun was fixed upon as a "year. Gregory was prompted to delve into the calendar by his desire to distribute throughout the year many church observances which were set apart for different days. In this way days came to have designated names and to so appear in the calendar. Great events, too, in the world's or nation's history have given distinctive names to days. M. German, for instance, has given Tuesday is "laties" day," and it obtains at the large "leaties" day," and it obtains at the large swelly calendar. The mane of Tuesday is "laties" day," and it obtains at the large swelly contains the store. The lines from Chicago and Cleve land to the Ohio River and between Ohio River points and St. Louis have formed an air-tight passenger pool. The agreement is to be called the Chi-cago and Ohio River pool and began its existence on the 3d inst. In any event the interstate act only prohibits freight pools and it is not thought to apply to passenger pools even by implication The pool is an outgrowth of the poo on party business which became effect tive several months ago. Since then there has been a complete absence of cut rates on such traffic and practically none on regular business. Some of the lines were getting restless, however, and, it is believed the constantly recurring rate wars between Chicago and Ohio River lines are ended indefinitely. The only weak point in pools is the dissatisfaction arising from the allot-

DECISION AGAINST POOLING. ST. PAUL, May 7.—The United States Circuit Court of Appeals today affirmed the decision of the United States Court for the Eastern District States Court for the Eastern District of Missouri in the case of the Chicago, Milwaukee and St. Paul Railroad against the Wabash, St. Louis and Pacific. These were the roads that with five others signed a pooling agreement in 1893, the division to be in the traffic itself. In the course of business the Wabash carried more than its share and the Milwaukee capried less. It was decided by the pool commissioner that the Wabash should pay the Milwaukee \$18,504 and the suit was instituted for that amount. The court holds that the plaintiff's action was based on an illegal contract; that with the contract ignored, there is no cause for action and, accepting the contract, it states an illegal and void cause for action and the courts will not lend their aid to ce any contract contrary to law

The action of the Union Pacific Rall-way in announcing a round-trip rate of \$15 from Kansas City and Omaha to Denver, Colorado Springs or Pueblo, on account of various meetings in Denver during June, July and August, will probably cause a war on rates to Colorado that will last all summer and will force the round-trip rate down to \$10 or less. The Santa Fe Rallway, growing tired of the delay of the Western Passenger Association, in making reduced rates to these meetings, announced a rate of one fare for the round trip from Kansas City and all points on its system. The Western Passenger Association immediately took action and made the same rate, but the Union Pacific announced its rate from Kansas City and Omaha, and it is \$15, or \$3.15 less than one fare for the round trip. The other lines, both in and out of the Western association, will, of course, have to make the same rate and then it is likely that the Union Pacific will cut deeper.

The National Bank of California is one of the few banks that successfully stood the sheck of the late panic and maintained full coin payments right through.

The National Bank of California pays no interest on deposits in any form, offers no special inducements for business other than reliability when the customers exercise their right to demand their money.

In the matter of loans it looks more to reliability than high rates of interest, and desires no loans except from good and reliable parties, and then exacts good security, believing that me bank is better or, more reliable than its loans.

Almost all varieties of produce have an upward tendency at present on account of the dry season. Deciduous fruits are beginning to appear in the market. Cherries are here from the North, but so far they are not very attractive, except from their novelty. Asparagus is in good supple, the white variety coming from the North and the other from local sources. Strawberries open this year cheaper than usual.

NEW YORK, May 7.—Today's stock market was inactive and without feature, the dealings being very largely confined to the room traders. Sugar, of the industrials, and St. Paul, of the railways, did more than one-half the business, the only other stock in which the transactions exceeded 10,000 shares being General Electric. The tone of speculation at the opening was weak and prices were generally 160% per cent. Gower. Sugar was, however, an exception, and on good buying rose 1 per cent., as compared with the closing sale of Saturday. The advance led to realizations, which induced a selling movement by the short interests, and the prices took a shaden downward turn, there being no supporting orders in the market until 1.65% was fouched, a decline of 2 per cent, from the top figures of the morning. Then some covering was done, which caused a railly of 1% per cent, followed by a reaction of 1% per cent, and a final recovery of % per cent, the closing prices being the same as Saturday's closing. Sugar advanced ½ per cent, on the day. St. Paul was beld very steadily during the morning and early in the afternoon, but was sold heavily during the morning and early in the afternoon, but was sold heavily during the morning and early in the afternoon, but was sold heavily during the morning and early in the afternoon, but was sold heavily during the morning and early in the afternoon, but was sold heavily during the morning and early in the afternoon, but was sold heavily during the morning and early in the afternoon, but was sold neavily during the morning and early in the afternoon, but was sold savily during the bear of the day. National Lead, after an early increase of % per cent, declined % per cent, the lists being the lowest price of the day. National Lead, after an early increase of % per cent, declined % per cent, and closed at the lowest price of the day of the market closed easy, with about as many stocks showing declines on the day as there were advances. The London Money Market.

NEW YORK, May 7.— The Evening Post's London cablegram says that the monthly trade returns today again show an improving tendency. The markets, however, were very dull, at the approach of the settlement and Whitsuntide. Consols and other gilt-edge stocks were strong on cheap money. American stocks were neglected, with a heavy tone, and closed at the lowest. Silver was 29½d and steady. There was 1565,000 in bar gold and United States gold coin bought; £2000 in sovereigns came 'n from Australia, and about fi000 is due within the next ten days.

THE Florence at San Diego is offering unequalled advantages as a hotel of quiet elegance and superb cuisine. Occupying one whole block, located above sea level, thereby escaping all possible dampness, with east, south and west frontages, all rooms enjoy the full benefit of the sun at some time of the day. Yet it is the coolest and dryest spot in Southern Callfornia, and commands a view over the entire city, of ocean, bay and mountains. Electric cars to all parts of the city, depots and ferries. Is acknowledged as the leading tourist resort, with plenty of side trips. Special inducements for May, Harry Watcham, proprietor, formerly of the Brown Palace at Denver. Boston Stock Market.

but 1/4c from the bottom figures of the day.

In corn there was very little animation with the trade practically all lower and fluctuations confined within a half cent limit. The advertency of wheat and the favorable weather seemed to create a bearish sentiment, but the selling was not large. The closing prices were near the bottom. In cast shere was a fair trade and, a weaker feeling, the offerings being ample for the present requirements of shorts, and prices, after opening steady, receded 4/c for May and June, and closed easy at about the inside figures. Provisions were very steady, but very dull, with scarcely any trading, the pit being almost deserted. It was claimed by some of the oldest operators to be one of the slowest days on record. HISTORICAL SOCIETY.

Interesting Papers Read at Last Night's

The Historical Society held its regular monthly meeting in Justice Aus-tin's courtroom last evening. There was a good attendance of members and

visitors.

Hon. C. Mulholland of Inyo county Hon. C. Mulholland of Inyo county read an interesting paper on "The Great Earthquake of 1872 in Owens River Valley." Mr. Mulholland gave a graphic description of the earthquake that occurred in Inyo county on March 26, 1872. This earthquake entirely destroyed the town of Lone Pine. Sixty persons were killed or wounded in that town. All the buildings in Independence were shaken down, but on account of most of the buildings being built of wood the loss of life was small there. The channel of Owens River was changed and in one place a lake was formed.

The channel of Owens River was changed and in one place a lake was formed.

T. A. Gardner of this city, who was a resident of Lone Pine at that time gave his experience. He was buried beneath the ruins of a large building, and, although severely injured, escaped death almost by a miracle.

The paper called forth considerable discussion and was highly commended.

H: D. Barrows read an interesting biographical sketch of Don Antonio F. Coronel. Mr. Coronel was born in the City of Mexico in 1817. He came to California in 1834, and for sixty years was a resident of California. He was a prominent actor in California. History. He held many offices of trust in the State. He was the first Assessor of Los Angeles county, was Mayor of the city, and State Treasurer for four years.

Mr. Barrows received the thanks of the society for his excellent paper.

H. D. Barrows, Father Adam and Mrs. Jeanne Carr wefe appointed to draft appropriate resolutions on the death of Mr. Coronel. Mr. Coronel was one of the first members of the Historical Society.

John W. Hugus of Pasadena and Miss Nellie Connolly of this city were elected active members of the Society.

Hon. D. O. Mills recently donated to the society a "History of the Centennial Inauguration of Washington," a magnificent volume of over seven hundred pages, and containing nearly eight hundred fine engravings. The subscription price of the book is 340. The thanks of the society were verturned to Mr. Mills for his valuable donation. Adjourned.

The City Attorney presented the following:

"As directed by you I have prepared and present herewith an ordinance making it a misdemeanor to have in possession any lottery ticket."

Councilman Pessell inquired if there is not a State law governing that point, but, being answered in the negative, he raised no further objection.

The roll was called on the passage of the ordinance, which was adopted by the affirmative vote of all the members except Mr. Nickell, who was not present when the matter was presented.

The body of the ordinance says:

"It shall be unlawful for any person to have in his possession, unless it be shown that such possession is innocent, or for a lawful purpose, any lottery ticket; or any ticket, certificate, paper or instrument purporting, or representor instrument purporting, or represent-ing, or understood to be, or to repre-sent any ticket, chance, share or interest in or depending upon the event of any lottery; or any tool, instrument, stamp or device used or intended to be used in or for contriving, setting up, preparing or drawing any lottery, or used or intended to be used in or for contriving, preparing, making, writ printing, stamping, or getting for sale or distribution any lot-

reary for sale or distribution any lot-tery ticket or tickets."

The penalty for a violation of the ordinance is fixed at a fine not exceed-ing \$500, or by imprisonment in the City Jail for a term not exceeding six months or both.

A petition was presented as signed by J. Bell as agent for the Mineralized Rubber Company of New York, and having attached to it a printed copy of decisions of the United States Supreme Court, which decision, the petition says, is on the power, of the State to tax the sale of merchandise within its borders, which is manufactured in any of the other States, where it is clearly shown beyond doubt that the State has no such power, and consequently cannot confer any such power upon a municipality.

## AT THE COURTHOUSE.

THE COURTS.

Edgar Moore Found Guilty of Grand Lar-ceny—An Important Opinion. Notwithstanding the fact that Edgar

Moore got on the witness stand yester-day morning and concluded his innocent little tale in defense of his actions towards Mrs. Boggs of Arizona, the jury in the afternoon found him guilty as charged of grand larceny. The case has been one of the most peculiar causes ever tried in Depart-

ment One, and Deputy District-At-torney Davis considers himself for-tunate to have secured a conviction torney Davis considers himself fortunate to have secured a conviction
under the singular state of facts
brought out. Moore had met Mrs.
Boggs at Prescott, Ariz., at the latter's
home. He became very intimately acquainted with her and a mutual affection seemed to have sprung up between
the two. At any rate, after Moore
the two. At any rate, after Moore
came to this city he wrote to Mrs.
Boggs and asked her to come here and
take a trip to the Midwinter Fair with
him, sending her money with which
to pay her fare. Previous to this the
fellow had learned that Mrs. Boggs
was in the habit of depositing a box
containing her money and valuables
with the County Treasurer at Prescott,
and he was laying his plans to get her
away from that city in order that he
might capture the box. Mrs. Boggs
came here and then Moore did his
work. He forged the name of Mrs.
Boggs to an order, directing that the
box be shipped here, and after he received it he took out money and rough
gold amounting in value to about \$500,
and then sent the box back. He displayed the money in Mrs. Boggs's presence at the room where the two were
stopping in this city, and the woman
becoming suspicious that all was not
right, sent to Prescott and found that
her box had been disturbed during her
absence. Moore was arrested, although
he was very loud in his protestations
of innocence, which he failed to prove.
Very cautiously he told his story
yesterday, relating in the most plausible way imaginable how Mrs. Boggs
had herself sent for the box and, after
it arrived here, had asked him to go
and get it for her. She did not want
to go herself, he said, because she
had directed the box to be addressed
to Mrs. Moore and she did not want to
be identified by that name.

The story was too thin to hold and
the jury swallowed it with a grain of
allowance, returning their verdict of
guilty as charged.

the case went up to the Superior Court on appeal from said judgment. Judge Clark holds that he has no appealate jurisdiction, for the reason that in all cases involving the title or ownership to real estate, original jurisdiction is vested in the Superior Court. MRS. CUSICK AGAIN.

Mrs. J. Ellen Cusick, the ex-wife of City Plumbing Inspector Cusick, was ordered committed to the insane asylum yesterday, an experience through which she has now passed for the third time. For nearly a year the woman has been a source of great annoyance to the city officials and others with whom she came in contact. About five years ago Cusick obtained a divorce from her, but she followed him to this city and endeavored to make his life miserable. she followed him, to this city and endeavored to make his life miserable. She was brought up on a charge of insanity after a time, and was sent to the asylum. Not many months later she came back, having been released as cured. Hardly had she gained the open air again when she made straight for her old stamping-ground, arriving here without loss of time. She once more started in to deg the footsteps of her former husband, and created much disturbance thereby.

Last week she was arrested for disturbance thereby.

Last week she was arrested for disturbing the peace, but this charge could not be made to hold, and yesterday she had her second examination before Judge Clark and Drs. Ainsworth, Wernigk and MacGowan, who ordered her committed to Highlands.

The courtroom yesterday was filled with witnesses and spectators. Mrs. Cusick was accompanied by counsel, and throughout the course of the proceedings she continued to make remarks contradictory to or in affirmance of, the statements of those testifying.

Justice Austin, W. E. Dunn and Chief of Police Glass all gave evidence tending to show that there was no doubt as to the woman's unbalanced mental condition, so the physicians decided that the most humane thing that could be done would be to commit her, and an order was made accordingly.

One of the particular ideas that the woman was wont to entertain was that she had never been divorced from Cusick, and that in reality she was his lawful wife. When told that the decree of divorce showed that this belief was erroneous, she would say that she was a member of the Catholic church, and that no divorce was recognized by it. Acting upon this same masne belief, she would call the present Mrs. Cusick all sorts of vulgar names, and would stop her ex-husband on the crowded street and ask him why he lived with her.

THE FEDERAL COURTS.

Cases Disposed of by Judge Ross Yesterda, in the Day's Routine. In the United States Circuit Court yesterday Judge Ross granted the motion to dismiss the abtachment in the case of F. N. Pauly vs. the San Diego Cable Railway Company, and overruled the demurrer in that of V. A. Whaley vs. the Singer Manufacturing Company, the defendant therein being allowed

thirty days' time within which to answer the complaint.

A number of cases brought by the Southern Pacific Railroad Company against R. E. L. Epperson and other settlers, were ordered dismissed with-out prejudice, upon motion of the com-

out prejudice, upon motion of the complainant.

Upon motion of J. H. Call, Esq., and by consent of counsel for the defendant, the pleas in abatement entered in the case of the United States vs. the Southern Pacific Railroad Company, were ordered to be submitted upon briefs, to be filed in thirty and twenty days, respectively.

The case of the United States vs. the Southern Pacific Railroad Company involving the validity of the defendant's patients and right to several thousands of acres quant in this and other countries.

along the line of its road to Mojave, came up for argument, the government being represented by J. H. Call, Esq., a special assistant to United States Attorney Denis, and Messrs. L. E. Payson of Washington, D. C., and W. F. Herrin of San Francisco, appearing for the defendant corporation. The matter will in all probability occupy the attention of the court for two or three days.

Judge Ross denied the motion of the defendant in the case of C. V. Nonton vs. the Atchison, Topeka and Santa Fe, Railroad Company, to quash the service of summons therein, for the reasons set forth in a lengthy written opinion filed therein. This suit was originally brought in the Superior Court of San Diego county, to recover the value of certain horses shipped by plaintiff at Hiswatha, Kan, to Escondido, Cal., which it is alleged were killed in transit, by reason of defendant's negligence. The summons was served upon K. H. Wade, as "general manager" of the defendant corporation, and judgment was entered for plaintiff by default, but was subsequently set aside and the summons quashed. An appeal ito the Supreme Court resulted in this ruling being affirmed (97 Cal., 389.) A new summons was then served upon K. H. Wade, as "managing and business agent" of the defendant corporation, and, after the case had been transferred to the Circuit Court, the upon K. H. Wade, as "mamaging and business agent" of the defendant corporation, and, after the case had been transferred to the Circuit Court, the motion to quash the summons was renewed. The court holds that the defendant, being a Kansas corporation, no jurisdiction can be obtained over it in an action for damages in this State, unless it has some representative here upon whom process may be legally served, but K. H. Wade is held to be such representative, and, therefore, the motion is denied. The defendant excepted to the ruting of the count, and was allowed thirty, days' time within which to file its bill of exceptions.

POSTOFFTICE ROBBER HELID. POSTOFFICE ROBBER HELD.

United States Commissioner Van Dyke held a preliminary examination Dyke held a preliminary examination yesterday into the case against J. C. She Had the Purse.

Mrs. Melvina Murphy, a mulatto, was arrested on Main street yesterday afternoon by Officer Miller upon the charge of petty larceny, but upon being taken to the police station was released from custody, bail in the sum of \$50 being furnished to insure her appearance in the Police Court today. About 2 o'clock a lady customer thoughtlessly left her purse in the toilet room at the Crystal Palace store, but upon going back for it found that it was not on the stani where she recalled leaving it. As the colored woman had just left the room before the owner of the purse returned to look for it, suspicion at once rested on her, and upon the matter being reported to Mr. Meyberg, the proprietor of the store, he followed Mrs. Murphy and gave her in charge of the policeman on that beat. When searched the purse was found in the colored woman's possession; but she indignantly denied all knowledge of it, and insisted that it must have been accidentally brushed off the stand into her parasol as she left the toilet-

Figueros-street Paving.

Maj. George H. Bonebrake has filed a communication to the City Council in which he says!

"I represent 180 feet on Figueroa street, and desire to say that, understanding the grade of Figueroa street has not been established beyond Adams street, that if I am compelled to set up my curbing and sidewalk, I am opposed altogether to the paving of the street. In regard to the material I would say that good asphaltum should be used. I prefer, however, bituminous rock, but if asphaltum is to be used in the construction of the street, I desire that the contractor may be authorized to use any asphaltum which may be regarded by the City Engineer as suitable for that purpose as Alcatraz, if such asphaltum can be obtained."

The Baptist Ministers.

A communication was read from Dr. F. R. Rowland, the recently-appointed Health Officer, relative to the salary attaching to the office. Dr. Rowland's prelecessor, Dr. Sherk, was Health Officer and Plumbing Inspector, and he received a salary of 15 to month for his services. When politics took a hand in the game, and Dr. Sherk was ousted because he is a Democrat, it was decided, at the same meeting at which Dr. Rowland was appointed, to segregate the office of Health Officer from that of Plumbing Inspector, with the salary attached to the latter position. Just who is Plumbing Inspector, with the salary attached to the position, hence his appeal to the Council for relief. Action in the matter was postponed one week.

The Tax Collector reported \$18 collected for dog licenses between April 17 and 30.

The Poundmaster's report for April showed the expenditures to be \$22, and the receipts \$3.

Ex-City Engineer Sedwick submitted a report, showing the amount of materials and appliances in the office, which report was concurred in by Mr. Sedwick's successor, W. B. Clapp.

The meeting then adjourned.

BERRY PLEADS GUILTY AND IS FINED.

Charles W. Berry, who conducted a restaurant by South Fair Oaks avenue, was

Recorder Rossiter and pleaded guilty to the charge. City Attorney Arthur asked permission of the court to place the defendant on the witness stand in order to establish the enormity of his guilt, and the request was granted. Berry's testimony went to show that he had openly violated the ordinance, not only by selling intoxicating beverages outside of the prescribed meal hour, but also by selling inquors, such as brandy, that are not down on the official list. Mr. Arthur thereupon addressed the court, and in a forcible speech urged that the maximum fine be imposed upon the defendant, for the reason that his case possessed no extenuating features. Recorder Rossiter then fined Berry \$300, which amount was promptly forthcoming.

ECONOMIZE ON WATER.

Owing to the scarcity of rain during the past winter, it will be necessary to exercise economy in the use of water during the summer. The water companies have wisely restricted the use of water for sprinkling and irrigating purposes to certain hours of the day, and consumers will do well not to violate the rules. Notwithstanding all this, a large amount of water is wasted by consumers, some of whom leave their lawn fountains in full blast all night in order to get the better of their more honest neighbors.

THEY GET DRUNK ANYHOW.

Notwithstanding the fact that Riverside is in a prohibition county, there has been, for the last month, more drunkenness in the city than during a similar length of time under high license. The question that is raised is, where is the liquor obtained to produce this state of affairs? Manny reports are current of people attempting to get liquors at the drug stores, but they were not accommodated. Some of the drunkenness is known to have been produced from drinking alcohol.

The man is known as William Meagher, and is a blacksmith in the employ of one of the shops in this city. The officers did not know that he was a drinking man, but was found at the shop last night badly cut about the left wrist and the throat. He had a razor and was evidently endeavoring to sever an artery in order to end his life in that way, and he bled very freely from the wounds inflicted. He appeared to be very drunk at the time. He is more sober today, but has little to say about the circumstance. It is not known that he had any cause, real or imaginary, for wishing to end his life, save that he was drunk.

The reading of ordinance No. 31, amending sections Nos. 9 and 11 of ordinance No. 12, adopted by the Board of Supervisors on March 25, 1891, as amended by ordinance No. 29 adopted April 21, 1894, then followed, after which the board decided to postpone any further action on the liquor proposition until 10 o'clock Tuesday morning. This action created considerable comment among the spectators as to the probable intention of the board in the matter. It was generally believed, however, that the board desired to defer action until after the meeting of the Board of City Trustees the following evening, as it was understood that some sort of a pertition is to be presented asking the Trustees to pass a similar ordinance to that which is about to be side-tracked by-the Supervisors.

Facts About Chinese Registration—The Outelook for Deciduous Fruits.

POMONA, May 6.—(Special Correspondence.) It will no doubt prove interesting to Pomonans, as well as to the reading population of the district at large, to learn the following facts in reference to Chinese registrations in the First district, comprising, besides Los Angeles county, six other Southern California counties, namely, San Bernardino, Riverside, Orange, Ventura,—Santa Barbara and San Luis Obispo, over which Sam Prager of Los Angeles has the supervision, and from whom the following facts in regard thereto were learned this morning, he being in Pomona on a visit to his daughter:

There were, up to the time of closing the books on May 2, registered some fifty-six hundred Chinamen, of whom about fority-two hundred and sixty were of the city and county of Los Angeles, this sub-office—Pomona—furnshing about thirty-five says it required upon an average at least twenty-five minutes to register a name as the specifications of the law demanded. Among various other things, a careful inspection as to any distinct or fiesh marks, etc., and, of all those individually examined by himself, of whom thirty five were women, he found but two who did not possess in some way a distinctive marks of feature.

He also remarked that, as a rule, they were perfectly willing, if not anxious, to register, and were much more clever in fact, well posted; and, while there are in each locality a scattering few who have not been registered, it was due principally to sickness or some other material cause which prevented their visiting the registration office; in fact he seemed to suggest the inference that there was scarcely sufficient time in which to make it thorough and complete.

According to the official lists of the local inspector, there have been, up to May 1, shipped this season from the various nurseries in Pomona in round numbers 447,000 trees; and it seems to be the opinion of many, judging from previous years, that, before the close of the season,

haps the total may be increased to 525,-000.

Feelers, in the way of letters and "men on the road," have already begun to bob up in this valley as to thee outlook for deciduous fruits-both green and canned—this summer, both as regards quality and quantity, as well as to get as many "pointers" as possible upon the probable prices that may rule. The shrewd fruit-handlers as a rule prefer, whenever practicable, to have a map of the situation before them when the mapset first opens. So let the fruit-growers also properly inform themselves upon the various pros and cons of the situation as it is developed. Nothing like always being prepared to meet any flank movement.

Things looked quite lively at the Souther the situation of the situation as it is one of the situation as it is developed. Nothing like always being prepared to meet any flank movement.

ing prepared to meet any fiank movement.

Things looked quite lively at the Southern Pacific depot and the terminus of the motor line, the cause being a large number of Pomonans taking the morning trains for Redondo Beach to pay a visit to the Monterey, and also a party for the Midwinter Fair via the Santa Rosa. Among the latter were Earl E. Cowan and mother, Miss Alice Borst and Mrs. Pratt.

Much interest is, of course, felt in the result of the triple oratorical contest at Pomona College tomorrow (Monday) evening by the residents of this valley, and, while they desire that each contestant will acquit himself nobly, there is just enough of "the old Adam" in them not only to wish, but to predict, that Allen will carry off the paim.

John C. Steele Named for Postmaster—Other Local Mention.

SANTA MOOICA, May 7.—(Special Correspondence.) The announcement in the Associated Press dispatches Sunday morning that President Cleveland had named John C. Steele for postmaster of Santa Monica put an end to an uncertainty that has kept local politicians in a ferment for many months. W. S. Vawter, the retiring official, sent his resignation to the department just thirteen months before the powers at Washington saw fit to name his successor. More than two months ago, too, Mr. Vawter's commission expired, and it is a fact patent to all that neither he nor his friends have ever put a straw in the way of an early settlement of the successorship which has only now been decided. Earlier in the contest there were a number of aspirants for the position, but the successful man was not one of them. Later the fight narrowed, in public view, to one between H. C. Beville and John C. Morgan, But it appears that the uncertainty regarding the best thing to do as between these two well-known Democratic workers gave opportunity for a less conspicuous third party to step in and carry off the prize.

Mr. Steele has many friends who congratulate him heartily upon his preferewill devote his time to the duties of the position and make an efficient and satisfactory officer. The bond is \$16,000, which he will be able to give, and the office, in clean, ship-shape, is ready for him the moment he can produce his commission.

which he will be able to give, and the office, in clean, ship-shape, is ready for him the moment he can produce his commission.

Following the settlement of the major question as to the appointment of a postmaster comes the corollary query as to the location of the office under the new regime. It is not so many months since the office was taken from near the corner of Third and Oregon to its present position, near the corner of Third and Utah. It is known that interests represented by Dr. Gates, the present landlord, at that time acquired title to the postoffice outfit. Now the question is, will they be able to continue it in the service of Uncle Sam? This correspondent voices only the street rumor in saying that an impression prevalls that the office will go back to or near the old stand. The distance between the two locations is too small to make the public's interpret in the question very considerable, and there will be no loud protests, whatever the decision; just as the former move created no widespread feeling for or against it.

It seems that there is absolutely no fruit left, every apple, pear, peach, quince, apricot, cherry and prune being frozen, the corn, beans and potatoes being also kfiled to the ground. Lettuce, cabbage and peas were all that were left. Over most of the region there has been a coat of snow two inches deep, and from the eaves ickles formed three feet long.

"JONATHAN." The New Republican Club Has Selected

Name and Secured Quarters.

The new Republican club adopted "Jonathan" as its name and "Wah-ho-

wah, wah-ho-wah, Jonathan, Jonathan, wah-ho-wah" as its warcry. Commodious headquarters were secured at No. 130 South Spring street, the club having the entire front of the the club having the entire front of the first story of that building. The rooms will be handsomely furnished and social attractions will be features of the club, to which from time to time ladies will be invited. The board of directors will appoint each month a committee on entertainment, whose duty it shall be to furnish a programme of social features for some evening.

The constitution and by-laws were adopted and the number of active members was limited to 100, sixty of which have signed the roll.

Last evening quite a large contingent of the club paraded the streets, practicing their warcry, in which they became quite proficient before midnight.

Theodore Pinther, the agitator, where the centre of San Ber recently sent Judge Otts of San Ber-mardino a threatening letter, in con-nection with the case of Vinette and the other "Industrials" in jail at that place, for which he was cited for con-tempt, yesterday emerged from his hid-ing-place, surrendered to the deputy sheriff and was taken to San Bernar-dino last eventuals.
